

Help create the long-range vision for the 7-county region

The Metropolitan Council is launching the **Thrive MSP 2040** effort this summer to create a **regional vision** for the future of the 7-county Twin Cities region over the next 30 years.

The essence of the plan is to **establish a foundation** of policies to **support the region** we will need for our children and grandchildren.

Public meetings don't fit into everyone's schedule, so to provide another option for the region's residents, businesses, policymakers and other stakeholders, the Council has created the **Your Ideas** site to **submit ideas, rank ideas, and discuss ideas** submitted on the site. The information will be used to help inform the policies developed as part of the Thrive MSP vision.

Visit the **Thrive MSP site** today for more information. And spread the word! Use our **#thrivemsp hashtag** on social media and feel free to share content with any of your contacts.

Priorities for Thrive MSP

- Maintain a **strong quality of life**
- Foster a **vibrant, prosperous** regional economy and job growth
- Plan for **essential infrastructure and regional services**
- Encourage **housing options** to accommodate our **changing population**
- Mitigate **economic and social disparities** through regional investments
- Support a **21st century transit and transportation system** in the 7-county region
- Create policies that address **equity**
- Mitigate pressures on the **region's natural resources**
- Improve the **efficiency of regional services**
