Division/Department:	Metropolitan Transportation Services

Proposed Action

That the Metropolitan Council authorize the Regional Administrator to execute a \$350,000 contract amendment with Southwest Transit for the Southwest Transit Station debt service, for an amended total contract amount not to exceed \$1,459,394.

Background

On February 25, 2008, Metropolitan Transportation Services' staff presented the 2008 Capital Program and Budget, Business Item 2008-40, to the Committee. The approved amendment brings in Federal funds and spending authority for the Southwest Transit Station debt service project.

Rationale

The Metropolitan Council approves funding for capital spending and must grant contract authority separate from funding approval.

Funding

This payment is funded with Federal funds that were derived from Southwest Transit's participation in the region's National Transit Database report.

Known Support / Opposition

This project was requested and is supported by Southwest Transit.
