**Proposed Action**

That the Metropolitan Council authorize the Regional Administrator to negotiate and execute a Cooperative Funding Agreement with Minnesota Department of Transportation (Mn/DOT) relative to the Civil East Construction bridge work in Saint Paul of \$500,000.

**Background**

Construction of the Central Corridor Light Rail Transit (CCLRT) project includes bridge work and other associated construction on the Cedar Street bridge over Interstate 94 and on the University Avenue Bridge over Trunk Highway 280.

Mn/DOT has requested the Council and its Civil East contractor to undertake certain bridge capital bridge maintenance desired by Mn/DOT at its expense while CCLRT construction is underway.

Metropolitan Council and Mn/DOT recognize that performing both the required CCLRT construction and the bridge maintenance concurrently is in the best interest of both parties and the public.

**Rationale**

Mn/DOT has agreed to compensate the Metropolitan Council in full for the cost of Mn/DOT requested bridge maintenance.

Agreements over \$250,000 require Council authorization.

**Funding**

Mn/DOT will reimburse the Metropolitan Council for the bridge maintenance work through the Bridge Improvements Program.

**Known Support / Opposition**

No known opposition.
