

Community Development Committee

Business Item

Item: 2009-4

Meeting date: January 20, 2009

ADVISORY INFORMATION	
Date:	January 8, 2009
Subject:	Request for reimbursement consideration of \$300,000 for development at North Mississippi Regional Park, Minneapolis Park & Rec. Board
District(s), Member(s):	District 7, Annette Meeks, ph. 612-341-8168
Policy/Legal Reference:	Strategy 2 (f) of 2030 Parks Policy Plan
Staff Prepared/Presented:	Arne Stefferud, Planning Analyst—Parks (651-602-1360)
Division/Department:	Community Development/Regional Systems Planning and Growth Strategy, Parks

Proposed Action

That the Metropolitan Council consider reimbursing \$300,000 to the Minneapolis Park & Rec. Board to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch in North Mississippi Regional Park when that amount of interest has been earned on the Council’s park bonds in accordance with State law.

Background

The Minneapolis Park and Recreation Board (MPRB) has requested reimbursement consideration of \$300,000 it expects to spend in the Spring of 2009 to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch in North Mississippi Regional Park.

Laws of Minnesota 1985, First Special Session, Chap. 15, Sec. 5, Subd. 2 (b), plus Laws of Minnesota 1987 Chapter 384, Article 3, Sec. 45, and Laws of Minnesota 1998, Special Session, Chapter 1, Article 3, Sec. 12 direct the Metropolitan Council to establish a separate account of interest it earns on park bonds and to grant funds from that account for the acquisition and development of North Mississippi Regional Park.

From 1985 to the present, the Metropolitan Council has authorized 18 grants totaling \$13,901,360 to acquire and develop North Mississippi Regional Park in accordance with the legislation cited above. Of this amount \$12,701,360 is interest earnings on bonds issued by the Council for regional park capital improvements.

Rationale

The *2030 Regional Parks Policy Plan* requires that requests for reimbursement consideration are consistent with the terms of Strategy 2(f). Council staff review found that the reimbursement consideration request of \$300,000 for improvements at the Camden Boat Launch in North Mississippi Regional Park is consistent with the terms of Strategy 2(f). The timing of when the MPRB is reimbursed for the \$300,000 is dependent on when that amount of interest is earned on the Council’s park bonds.

Funding

As described above, State law requires the Metropolitan Council to grant the interest it earns on park bonds for the acquisition and development of North Mississippi Regional Park. At this time there is not \$300,000

of interest earnings to grant for this project. The MPRB's request for reimbursement consideration allows the Council to consider authorizing a grant for the project when sufficient interest earnings have been accumulated.

Known Support / Opposition

On January 6, the Metropolitan Parks and Open Space Commission unanimously approved the recommendation. There is no known opposition to the MPRB's request.

SUBJECT: (2009-4) Request for reimbursement consideration of \$300,000 for development at North Mississippi Regional Park, Minneapolis Park & Rec. Board

INTRODUCTION

The Minneapolis Park and Recreation Board (MPRB) has requested reimbursement consideration of \$300,000 it expects to spend in the Spring of 2009 to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch in North Mississippi Regional Park. (See **Attachment 1**, letter from Andrew Lesch, Mpls. Park & Rec. Board). A map of the park is on **Attachment 2**.

This memorandum contains a review of the request for reimbursement consideration under applicable terms in Strategy 2(f) of the *2030 Regional Parks Policy Plan*.

AUTHORITY TO REVIEW

Laws of Minnesota 1985, First Special Session, Chap. 15, Sec. 5, Subd. 2 (b), plus Laws of Minnesota 1987 Chapter 384, Article 3, Sec. 45, and Laws of Minnesota 1998, Special Session, Chapter 1, Article 3, Sec. 12 direct the Metropolitan Council to establish a separate account of interest it earns on park bonds and to grant funds from that account for the acquisition and development of North Mississippi Regional Park.

BACKGROUND and ANALYSIS:

From 1985 to the present, the Metropolitan Council has authorized 18 grants totaling \$13,901,360 to acquire and develop North Mississippi Regional Park in accordance with the legislation cited above. Of this amount \$12,701,360 is interest earnings on bonds issued by the Council for regional park capital improvements. Details on the grants awarded for the park are shown in **Attachment 3**.

In 1998 the Legislature expanded the boundary of North Mississippi Regional Park to include a trail segment along 49th Avenue. The trail portion extends approximately one-mile west of the main park to Humboldt Avenue and Shingle Creek. In 2003 the Metropolitan Council approved an amended master plan for North Mississippi Regional Park to include trail development along 49th Avenue consistent with the legislation.

In 2002 the MPRB proposed additional future development projects for North Mississippi Regional Park that were estimated to cost \$3,260,000 at that time. Details of the projects and what has been funded for some of those projects are shown on **Attachment 4**. Discussions with legislators to cap the open ended appropriation for this park were conducted. Since the actual

costs for the additional improvements would be dependent on future inflationary factors there was no support for proposing a cap in the amount that could be granted for the park.

REIMBURSEMENT REQUEST ANALYSIS

The MPRB expects to spend \$300,000 beyond what has been granted to-date in the Spring of 2009 to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch. At this time the Metropolitan Council does not have \$300,000 of interest earnings on its park bonds to provide a grant now for this project. Therefore, if the MPRB has to spend its own funds on this project, the Council could consider reimbursing the MPRB with a grant when \$300,000 of interest earnings has been accumulated.

Strategy 2(f) of the *2030 Regional Parks Policy Plan* states:

Strategy 2(f): Reimbursement

Reimbursement will be considered for development provided the project in question is consistent in timing, scale, type and cost with an approved master plan, that all information required for a development grant is submitted to the Council prior to the regional park implementing agency undertaking the project and that the Council approves the project.

This project is consistent with the terms of Strategy 2(f) for the following reasons:

- a. The timing, scale and cost of the project are consistent with the development master plan for North Mississippi Regional Park approved by the Metropolitan Council and cited in the letter from the MPRB in **Attachment 1**.
- b. Enough information has been submitted in this request regarding what would be financed with a Council grant to meet the requirements of Strategy 2(f). In this case, that information is contained in **Attachment 1**.
- c. The MPRB is requesting Metropolitan Council approval for this project prior to undertaking it.

CONCLUSIONS

1. State law requires the Metropolitan Council to spend the interest it earns on park capital improvement bonds for the acquisition and development of North Mississippi Regional Park.
2. The *2030 Regional Parks Policy Plan* requires that requests for reimbursement consideration are consistent with the terms of Strategy 2(f). This review concludes that the reimbursement consideration request of \$300,000 to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch in North Mississippi Regional Park is consistent with the terms of Strategy 2(f). The timing of when the MPRB is reimbursed for the \$300,000 is dependent on when that amount of interest is earned on the Council's park bonds.

RECOMMENDATION

That the Metropolitan Council consider reimbursing \$300,000 to the Minneapolis Park & Rec. Board to add a dock, restroom, picnic shelter, pavement and site improvements at the Camden Boat Launch in North Mississippi Regional Park when that amount of interest has been earned on the Council's park bonds in accordance with State law.

**RE: North Mississippi Park 49th Ave. Trails and Trails and Parking
51st Ave. N. to 53rd Ave. N- Reimbursement Grant Request**

Dear Arne:

We began construction on North Mississippi Park Trails and Parking in October. We encountered a large soil correction issue when removing former Lyndale Avenue. We also have an opportunity to provide an innovative storm water treatment system using a reinforced turf system for overflow parking in the North Mississippi Fund.

Overall the project bids came in better than expected. With that said we would like to obtain a reimbursement agreement in the amount of \$300,000 against future (Council Interest Earnings) funds for use in North Mississippi Park. The actual funds wouldn't be needed until spring of 2009 when I expect a request will be made for a new grant in the amount of Council Interest Earnings from the Park Fund.

The grant funds are to be used as follows:

The new funds would be added to Grant SG-2006-149 which dedicated \$82,000, Sg-2007-098 for \$348,825, Sg-2008-049 for \$654,298 plus the present request of \$300,000 for a total of \$1,385,123 to be used for trail and parking improvements from 49th Ave. N. to 51st Avenue North.

Any remaining eligible funds and our next request in the Spring of 2009 will be used for improvements to the Camden Boat Launch area for dock, restroom, picnic shelter, pavement and site improvements.

The current project is replacing the remaining former Lyndale Ave. North pavements and curbing, constructing new parking, picnic facilities, lighting, utilities, landscaping. A separated bike path which ends in the picnic shelter area is being extended, and 3 open air picnic shelters are under construction.

These improvements are consistent with the Master Plan suggested development Action items. Action 6 states "Construct a hike bike trail from 53rd Ave to the Camden Bridge". Action 7. states "Develop a park entrance at 49th Ave. and a recreational node between the 47th Avenue and

51st Avenue areas” (parking, restrooms, a picnic area shelter, open play area, and shoreline fishing).

Access for park users driving from the North at 53rd Avenue has been difficult, parking along the old street from 53rd Ave. N. to about 52nd Ave N where the new culde-sac was implemented in an earlier phase with the playground, shelter, toilets parking improvements.

Should you need additional grant information please feel free to contact me at 612-230-6438.

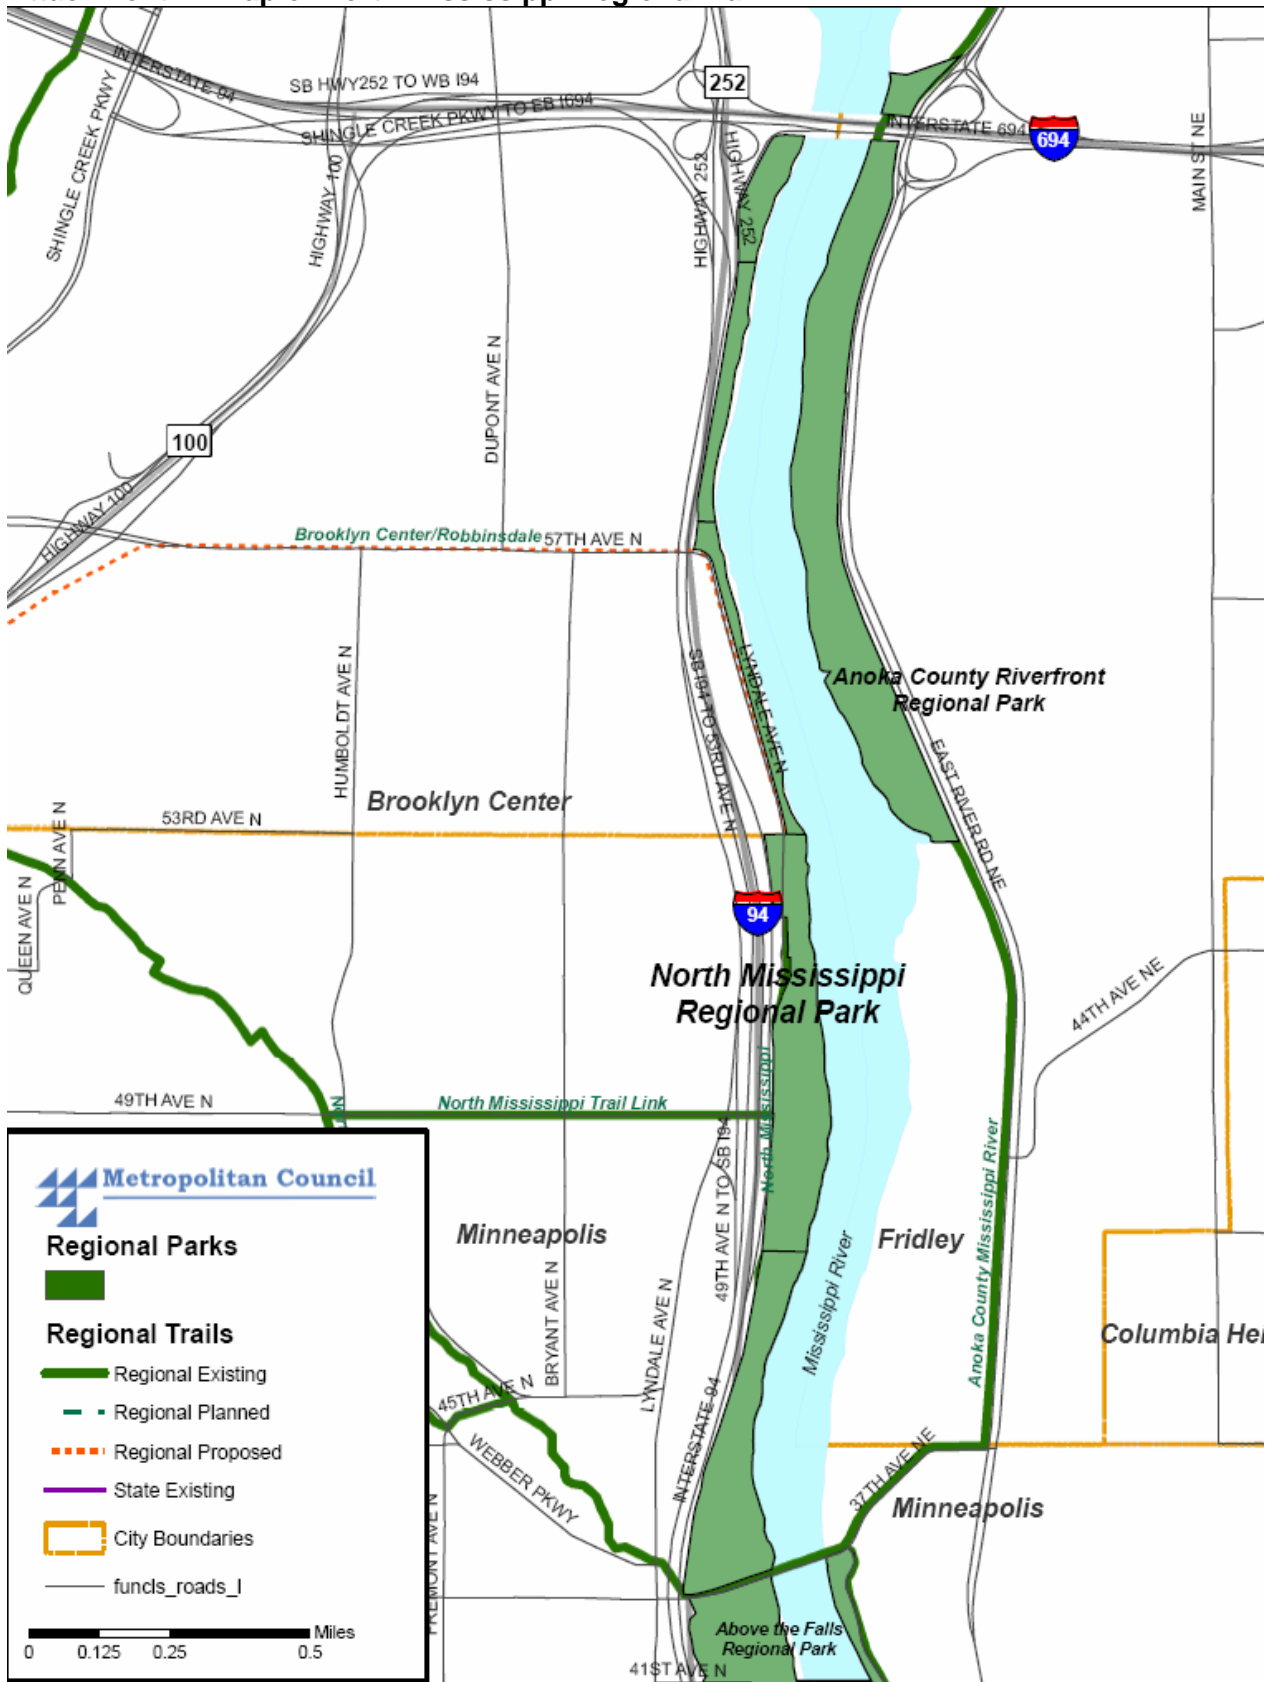

Sincerely,

Andy Lesch

RLA , Park & Recreation Planner
