Council members Smith reported that as part of its ongoing Northstar risk assessment, the Federal Transit Administration (FTA) has asked for a \$10.1M increase in the project contingency (\$5M federal, \$5.1M local.) The \$5.1M commitment is needed the week of May 7 and because the Council is able to act more quickly than other local partners, the Council was asked to provide the contingency commitment on behalf of the partners. The Northstar Corridor Development Authority, at their May 3 meeting, passed a resolution confirming its approval of the increased project costs, with a recommendation to the Northstar Funding Partners for the commitment of the \$1.7M in addition funding for the Project's contingency fund. The Council's contribution will be from existing Transit Bonds

The additional amount will increase the Northstar CEI by \$1.00 FTA expects to issue new guidelines, increasing the threshold by \$1.00. With that adjustment, Northstar will remain eligible for funding.
