

# Transportation Committee

For the Metropolitan Council meeting of January 23,  
2008

## **ADVISORY INFORMATION**

**Date Prepared:** January 15, 2008

**Subject:** 2008-2011 Transportation Improvement Program (TIP) Amendment: Scope Change for Metro Transit SP #CM-14-03 Vehicle Purchase and SP #CM-05-03 Service Implementation (TAB Action 2007-63)

### **Proposed Action:**

That the Metropolitan Council concur with the Transportation Advisory Board (TAB) Actions to amend the 2008-2011 Transportation Improvement Program (TIP) to approve the following:  
Request by Metro Transit to reduce the total cost of SP#CM-14-03 from \$5,941,761 to \$3,025,625 and SP#CM-05-03 from \$1,269,931 to \$926,930 (TAB Action 2007-63).

### **Summary of Committee Discussion / Questions:**

Carl Ohrn presented to the committee. There were no further questions from committee members. Motion by Susag, seconded by Leppik; motion passed unanimously.

Hearing no objection, Vice Chair Meeks said that this item could move to the full Council as a Consent Item.

# Transportation Committee

**Business Item**

Item: 2008-20

**Meeting date: January 14, 2008**

## ADVISORY INFORMATION

<b>Date:</b>	January 4, 2008
<b>Subject:</b>	2008-2011 Transportation Improvement Program (TIP) Amendment: Scope Change for Metro Transit SP #CM-14-03 Vehicle Purchase and SP #CM-05-03 Service Implementation (TAB Action 2007-63)
<b>District(s), Member(s):</b>	All
<b>Policy/Legal Reference:</b>	TAB Action
<b>Staff Prepared/Presented:</b>	Carl Ohrn, Planning Analyst MTS (651-602-1719) Amy Vennewitz, Dep. Dir. Finance & Planning MTS 651-602-1058) Arlene McCarthy, Director MTS 651-602-1754)
<b>Division/Department:</b>	Metropolitan Transportation Services

### Proposed Action

That the Metropolitan Council concur with the Transportation Advisory Board (TAB) Actions to amend the 2008-2011 Transportation Improvement Program (TIP) to approve the following:

Request by Metro Transit to reduce the total cost of SP#CM-14-03 from \$5,941,761 to \$3,025,625 and SP#CM-05-03 from \$1,269,931 to \$926,930 (TAB Action 2007-63).

### Background

The scope change is needed because Metro Transit will not construct the park-and-ride at CSAH 81 and CR 152 associated with the bus purchase and transit service. Because Metro Transit will not build the CSAH 81 park-and-ride, they do not require as much service in the corridor.

Metro Transit will add parking to the park-and-ride facility at TH 610 and Noble Parkway and the 63<sup>rd</sup> Avenue park-and-ride, which should absorb much of the demand in this corridor.

### Rationale

The TAB must approve scope changes to regionally selected projects before a project can be implemented.

### Funding

The returned funds will be allocated in the 2007b solicitation process.

### Known Support / Opposition

No known opposition.

Mr. Bell:

On December 19, 2007, the Transportation Advisory Board (TAB) voted to approve a request from Metro Transit to change the scope and reduce the total cost of SP# CM-14-03 from \$5,941,761 to \$3,025,625 and SP# CM-05-03 from \$1,269,931 to \$926,930.

The TAB forwards this action to the Metropolitan Council for concurrence along with additional information described in TAB action transmittal 2007-63.

Sincerely,

PR Donn Wiski, Chair  
Transportation Advisory Board

**Transportation Advisory Board**  
of the Metropolitan Council of the Twin Cities

---

**ACTION TRANSMITTAL**

No. 2007-63

**DATE:** January 4, 2008  
**TO:** Metropolitan Council  
**FROM:** Transportation Advisory Board  
**SUBJECT:** Scope change for Metro Transit SP #CM-14-03 Vehicle Purchase and SP #CM-05-03 Service Implementation

**MOTION:** The Transportation Advisory Board approved a request by Metro Transit to change the scope and reduce the total cost of SP# CM-14-03 from \$5,941,761 to \$3,025,625 and SP# CM-05-03 from \$1,269,931 to \$926,930.

**BACKGROUND AND PURPOSE OF ACTION:** The TIP Amendment is needed because Metro Transit is turning back a portion of the federal funds awarded to it for the Bottineau Boulevard Corridor. The park-and-ride at CSAH 81 and CR152 associated with the bus purchase and transit service in this scope change has been dropped from the TIP. In addition, Metro Transit is expanding the Highway 610 and Noble Parkway park-and-ride and the 63<sup>rd</sup> Avenue park-and-ride, which should absorb much of the demand in this corridor. Because the CSAH 81 park-and-ride will not be built, Metro Transit does not require as much service. In addition to this TIP Amendment, the withdrawal of SP #90-595-08 (the park-and-ride facility), which had a federal cost cap of \$7,150,550, will be removed from the TIP.

Additional background material is attached.

---

Re: Amendment to the 2008-2011 Transportation Improvement Program (TIP) for the Twin Cities, Minnesota Metropolitan Area

State Project Number: 90-595-08 (Facility Construction)

State Project Number: CM-14-03 (Vehicle Purchase)

State Project Number: CM-05-03 (Service Implementation)

Dear: Mr. Mayasich:

Please consider this formal request from Metro Transit to amend the Minnesota 2008 – 2011 Transportation Improvement Program (TIP) for the Twin Cities Minnesota to modify the corresponding facility construction, vehicle purchase, and service implementation projects for the Bottineau Boulevard Corridor in 2008-2011. A separate request letter has been submitted for the related scope change. The projects are being submitted with the following information:

**PROJECT IDENTIFICATION:**

STATE FISCAL YEAR	ATP	DIST	ROUTE SYSTEM	PROJECT NUMBER (S.P. #) (Fed # if available)	AGENCY	DESCRIPTION  include location, description of all work, & city (if applicable)	MILES
2008	M	M	CSAH 81	90-595-08	Met Council - MT	DO NOT construct park-and-ride facility at CSAH 81 and Co Rd 152 in Brooklyn Park	0

TR	Service Implementation	CMAQ	\$926,930	\$741,544	\$0	\$0	\$0	\$185,386

## PROJECT BACKGROUND:

1. Briefly describe why amendment is needed (e.g., project in previous TIP but not completed; illustrative project and funds now available; discretionary funds received; inadvertently not included in TIP).

There are 3 different grants associated with this proposed park-and-ride. Amendments to the facility construction, vehicle purchase, and service implementation grants are being requested.

### Facility Construction (90-595-08)

*Request: Remove the CSAH 81 (Bottineau Boulevard) and Co Rd 152 (Brooklyn Boulevard) park-and-ride project as a line item. Reduce 800 spaces to 0 spaces. Reduce the total (federal and local) facility construction cost from **\$8,938,188** to **\$0**.*

The property originally identified as the park-and-ride site in this grant is not available and its acquisition would require eminent domain action. An alternate site was found for the proposed park-and-ride, located in the northwest quadrant of Brooklyn Blvd and Bottineau Blvd, immediately north of the originally identified site. The alternate location would have served the same market area as the originally proposed site.

However, the alternate location appears to be in need of remediation and would require cost prohibitive storm water treatment. Also, the site would have required a new city road to provide access from Brooklyn Blvd.

The original plan for building park-and-ride capacity to serve the Bottineau Blvd BRT Corridor involved building two facilities: 800 structured spaces at Brooklyn Blvd and 250 surface spaces (expandable to 550 structured spaces in the future) at 63<sup>rd</sup> Ave. Due to the land acquisition problems at Brooklyn Blvd combined with the need to ensure adequate park-and-ride capacity to serve the corridor in the near-term, a decision was made to fully build-out 63<sup>rd</sup> Ave immediately. The 550-space 63<sup>rd</sup> Ave park-and-ride has been operational since March 2007. Also, Metro Transit plans to deck the Hwy 610 and Noble Parkway park-and-ride, providing an additional 582 spaces at a facility that shares part of its market area with the Bottineau Blvd and Brooklyn Blvd site. As a result, most of the demand in the Brooklyn Blvd market area will be absorbed by nearby park-and-rides.

Since this facility will not be built, none of the \$6,094,000 in federal grant money (2008 dollars) will be needed.

Vehicle Purchase (CM-14-03)

*Request: Change the vehicles from hybrid electric to ultra-low sulfur, bio diesel, and the number of vehicles to be purchased from 10 to 5. Reduce total (federal and local) vehicle purchase cost from \$5,941,761 to \$3,025,625.*

The incremental number of buses required to serve an additional 400 spaces is five (peak service and spares). The original application focused primarily on hybrid electric buses. However, the application stated that "Expanded service would be operated with a new fleet of hybrid-electric buses and/or articulated buses."

Hybrid electric buses are not as effective in reducing emissions when used on express routes traveling long distances at higher speeds as compared to use on local routes traveling shorter distances at slower speeds. Ultra-low sulfur, bio diesel, articulated buses are the best option for obtaining the greatest energy efficiency and emissions reduction on long-distance, express routes. It is expected that 5 ultra-low sulfur, bio-diesel, articulated buses could be delivered for operational use by the end of 2008.

Five ultra-low sulfur, bio-diesel, articulated buses will cost approximately \$3,025,625 (2008 dollars), and therefore the full \$5,941,761 grant (2008 dollars) will not be needed. Although Metro Transit is currently using buses to run six trips per day, these are buses that have been held from retirement, not new buses. Metro Transit has already ordered five ultra-low sulfur, bio-diesel, articulated buses to replace the buses being held from retirement and to add additional service.

Approximately \$2,420,500 in federal funding (2008 dollars) will be need to purchase five ultra-low sulfur, bio-diesel, articulated buses and therefore the full \$4,753,409 federal grant (2008 dollars) will not be needed.

Service Implementation (CM-05-03)

*Request: Reduce the level of service based on the reduction from 1,050 to 550 spaces. Reduce the number of daily trips from 37 to 8. Advance service implementation funding from 2009-2011 to 2008-2010. Reduce total (federal and local) service implementation cost from \$1,269,931 to \$926,930.*

The incremental number of daily trips required to serve an additional 400 spaces is 14 (7 am and 7 pm). Metro Transit is already operating 6 trips per day on route 767 (3 am and 3 pm). Therefore, Metro Transit requests funding for 8 trips per day (4 am and 4 pm).

Approximately \$741,544 in federal funding (2009-2011 dollars) will needed to provide eight daily trips in 2009, 2010 and 2011, and therefore the full \$1,015,944 federal grant (2009-2011 dollars) will not be needed.

How is Fiscal Constraint Maintained as required by 23 CFR 450.216 (check all that apply)?
