Proposed Action/Motion

That the Metropolitan Council authorize the Regional Administrator to execute subrecipient agreements with the specified agencies and for the specified amounts of federal Job Access and Reverse Commute (JARC) or New Freedom program funding identified in Attachment A.

Background and Funding

The projects receiving funding through the federal JARC and New Freedom programs were selected using a competitive solicitation process. A list of recommended projects was approved by the Council on October 10, 2007. The same list was subsequently amended into the region's 2008-2011 Transportation Improvement Program (TIP), which was brought to the Council on November 17, 2007. These projects were also amended into the 2008 MTS Operating Budget on March 12, 2008.

Rationale

The projects were selected using a competitive process and agreements must now be executed to allow for the disbursement of funding from JARC and New Freedom programs to the designated subrecipients.

Known Support / Opposition

Recipient agencies support this business item. No known opposition.
