

J Management and Transportation Committees

Item: 2008-258

For the Metropolitan Council meeting of November 12, 2008

ADVISORY INFORMATION

Date Prepared: November 3, 2008

Subject: 2008-2013 Capital Improvement Program and Capital Program and Budget
Amendment

Proposed Action

That the Metropolitan Council:

- Amend the 2008 Authorized Capital Program (Multi-year authorization) by adding or reducing authority to the Transportation Division as follows:

Metro Transit	\$ 11,787,098
Metropolitan Transportation Services	(\$ 432,319)
- Amend the 2008 Capital Budget (annual appropriation) by increasing or decreasing spending authority to the Transportation Division as follows:

Metro Transit	\$ 4,611,766
Metropolitan Transportation Services	(\$ 432,319)
- Approve new projects and transfers between capital projects as detailed in Attachment 1

Summary of Committee Discussions

The proposed amendments were discussed at the Management Committee meeting on October 22 and the Transportation Committee on October 27. There were no major issues or concerns.

Division/Department: Transportation

Proposed Action

That the Metropolitan Council:

- Amend the 2008 Authorized Capital Program (Multi-year authorization) by adding spending authority to the Transportation Division as follows:

Metro Transit	\$ 11,787,098
Metropolitan Transportation Services	(\$ 432,319)

- Amend the 2008 Capital Budget (annual appropriation) by increasing spending authority to the Transportation Division as follows:

Metro Transit	\$ 4,611,766
Metropolitan Transportation Services	(\$ 432,319)

- Approve new projects and transfers between capital projects as detailed in Attachment 1

Background

This proposed amendment recognizes approximately \$ 7.7 million in CTIB and Regional Rail Authority funding for the Central Corridor project and approximately \$ 1.5 million in federal and Metro Transit operating fund transfers to fund bus tire leasing and \$2.13M in subordinate funding agreements with the Northstar Corridor Development Authority. The amendment also reallocates state and regional funding between projects.

Rationale

See attached Transportation Committee business item.

Fiscal Impact

This proposed amendment does not include new regional bonding authorization and is consistent with the Council goal to keep the impact of Council property taxes on existing regional taxpayers flat over time.

Background

Metro Transit

Reallocation of Existing Funds

Urbanized Partnership Agreement (UPA) – Project 63740

This amendment recognizes regional transit capital funds that are being transferred from Metropolitan Transportation Services to be used as local match to federal UPA funds for the Transit Signal Priority System UPA project.

Timetable Automation & Subscription Service – Project 64382

Metro Transit Technology Upgrades & Enhancements - Project 64690

Project 64382 will be developed in-house by Council Staff rather than by an outside vendor and will not use the grant funds. This amendment moves those funds to an allowable technology project allowable by the grant and will be used to fund ongoing future technology needs.

Sector 5 Park and Ride Facilities – Project 63315

**CR 73/I394 Park and Ride – Project 63956
Transit Hubs - I35W Corridor – Project 63752**

This amendment is to reallocate State BAPTA funds between allowable projects to reflect expected project costs and scope. Total authorization does not change.

Introduction of New Funds

Tire Leasing – Project 61390

This amendment is increasing the project authorization for a new federal grant. This federal grant will be matched by operating funds.

Central Corridor LRT – Project 65701

This amendment will amend the project authorization amount to match the CCLRT New Starts application. The additional \$7.7 million comes from the not-to-exceed amounts in the RCRRA, HCRRA, and CTIB board resolutions passed in July and August, 2008.

Northstar Rolling Stock & Expenses – Project 65510

This amendment will amend the project authorization grant amounts with the Northstar Corridor Development Authority (NCDA) subordinate funding agreements with the Metropolitan Council. It provides for flagging services for station and platform construction, fare collection equipment, and capitalized Metro Transit 2008 staff resources.

**Metropolitan Transportation Services
Remove/Add Additional Funding to Existing Projects**

**Cedar BRT Dakota County Pending Studies – Project 35703
Cedar BRT Project Management – Project 35717**

This amendment moves remaining project management funds into the larger Cedar BRT construction project.

**Demand Vehicle Replacement – Project 35771
Shakopee Back-up Vehicle – Project 35786
Southwest Security System Upgrade
Replacement Bus Purchase – Project 35773**

This amendment takes remaining authority from the first three listed projects and moves it into a Metro Transit UPA project (#63740). The authority in the demand vehicle replacement is a project left over after project was completed. The Shakopee back-up vehicles were purchased out of another vehicle project and therefore this project is no longer necessary. The SW security system upgrade is a project that Southwest Transit chose to forego and redirect toward their station debt. The replacement bus project will receive \$163,545 and the Metro Transit UPA project will receive \$432,319 from the closing of these projects.

Rationale

The proposed amendment programs new federal and matching funds to allow the Council to carry out its long-term capital improvement program for transit.

Funding and Fiscal Impact

This proposed amendment reallocates existing funds between projects with no net change in authority, incorporates new federal funds to be matched with existing Metro Transit Operating funds, and recognizes other available local funds into the Capital Program and Budget. The new funds will be used for ongoing needs or

project development. It is consistent with the Council goal to keep the impact of Council property taxes on existing regional taxpayers flat over time.
