

C Community Development Committee
For the Metropolitan Council meeting of October 13,
2010

Item: 2010-316

ADVISORY INFORMATION

Date September 20, 2010
Prepared:
Subject: **Request for reimbursement consideration in future Regional Parks
CIP for Mississippi River Regional Trail, North Urban Regional Trail
and signing projects, Dakota County**

Proposed Action:

That the Metropolitan Council consider reimbursing Dakota County in future regional parks capital improvement programs up to \$1,687,000 for projects shown in Table 1. However, the Council does not under any circumstances represent or guarantee that reimbursement will be granted, and expenditure of local funds never entitles a park agency to reimbursement.

Summary of Committee Discussion / Questions:

The Community Development Committee asked if the Mississippi River Regional Trail included a trail along the entire 72 mile length of the Mississippi River in the Twin Cities Region. Staff replied that it does, but that sections of the trail are operated and maintained by individual regional park agencies that are within that agency's political jurisdiction.

The Committee unanimously approved the recommendation.

Community Development Committee

Meeting date: September 20, 2010

Business Item
Item: 2010-316

Date:	September 7, 2010
Subject:	Request for reimbursement consideration in future Regional Parks CIP for Mississippi River Regional Trail, North Urban Regional Trail and signing projects, Dakota County
District(s), Member(s):	15, Daniel Wolter and 16, Wendy Wulff
Policy/Legal Reference:	Minnesota Statute Section 473.315
Staff Prepared/Presented:	Arne Stefferud, Planning Analyst-Parks (651-602-1360)
Division/Department:	Community Development Division

Proposed Action

That the Metropolitan Council consider reimbursing Dakota County in future regional parks capital improvement programs up to \$1,687,000 for projects shown in Table 1. However, the Council does not under any circumstances represent or guarantee that reimbursement will be granted, and expenditure of local funds never entitles a park agency to reimbursement.

Background

Dakota County has asked the Metropolitan Council to consider reimbursing the County in future regional parks capital improvement programs up to \$1,687,000 for the following capital projects:

\$1,100,000 as a match to a \$1,000,000 federal Transportation Enhancement grant to develop 3.7 miles of the Mississippi River Regional Trail in the City of Rosemount from the City of Inver Grove Heights/Rosemount border to Spring Lake Park Reserve.

\$415,000 as a match to a \$709,000 federal Transportation Enhancement grant for acquisition and construction of 1.1 miles of the North Urban Regional Trail through Dodge Nature Center in the City of West St. Paul

\$172,000 for system-wide signage including primary and secondary entrance signs, directional, regulatory and interpretive signs.

This memorandum contains a review of the request for reimbursement consideration under applicable terms in Strategy 2(f) of the *2030 Regional Parks Policy Plan*.

Rationale

Strategy 2(f) of the *2030 Regional Parks Policy Plan* states:

Strategy 2(f): Reimbursement

Reimbursement will be considered for development provided the project in question is consistent in timing, scale, type and cost with an approved master plan, that all information required for a development grant is submitted to the Council prior to the regional park implementing agency undertaking the project and that the Council approves the project.

These projects are consistent with the terms of Strategy 2(f) for the following reasons:

1. The timing, scale and cost of this project are consistent with the Council-approved development master plan under the following factors:
 - a. The timing, scale and cost of the projects are consistent with the development master plans for the following trail and park projects:

Mississippi River Regional Trail (MRRT) master plan initially approved in 1999 with an amendment to the plan regarding the MRRT East segment approved January 28, 2009

North Urban Regional Trail (NURT) master plan update approved in April 1997.

- b. Enough information has been submitted in this request regarding what would be financed with a Council grant to meet the requirements of Strategy 2(f). In this case, that information is contained in **Attachment 1**.
 - c. Dakota County is requesting Metropolitan Council approval for these projects prior to undertaking them.

Funding

At this time there are about \$42 million of projects that the Metropolitan Council has approved for regional parks CIP reimbursement consideration. Such approval only allows the applicable regional park agency to seek reimbursement funding for such projects as part of that agency's share of future regional parks capital improvement programs. Table 2 at the end of this memorandum lists all projects that may be considered for reimbursement in future regional parks capital improvement programs as of August 23, 2010.

Known Support / Opposition

The Metropolitan Parks and Open Space Commission reviewed this request at its meeting on September 7. The Commission unanimously approved the recommendation. There is no known opposition to this proposal.

SUBJECT: (2010-316) Request for reimbursement consideration in future Regional Parks CIP for Mississippi River Regional Trail, North Urban Regional Trail and signing projects, Dakota County

Introduction

Dakota County has asked the Metropolitan Council to consider reimbursing the County in future regional parks capital improvement programs up to \$1,687,000 for the following capital projects:

\$1,100,000 as a match to a \$1,000,000 federal Transportation Enhancement grant to develop 3.7 miles of the Mississippi River Regional Trail in the City of Rosemount from the City of Inver Grove Heights/Rosemount border to Spring Lake Park Reserve.

\$415,000 as a match to a \$709,000 federal Transportation Enhancement grant for acquisition and construction of 1.1 miles of the North Urban Regional Trail through Dodge Nature Center in the City of West St. Paul

\$172,000 for system-wide signage including primary and secondary entrance signs, directional, regulatory and interpretive signs. (**See Attachment 1, letter from Steve Sullivan**)

This memorandum contains a review of the request for reimbursement consideration under applicable terms in Strategy 2(f) of the *2030 Regional Parks Policy Plan*.

Authority to review

Minnesota Statute Section 473.315 authorizes the “Metropolitan Council with the advice of the Metropolitan Parks and Open Space Commission to make grants from any funds available to it for recreation open space purposes to any municipality, park district or county located wholly or partially within the metropolitan area to cover the cost, or any portion of the cost, of acquiring or developing regional recreation open space in accordance with the [*Regional Recreation Open Space*] *Policy Plan*”.

Background

In 1999, the Metropolitan Council approved the development master plan for the Mississippi River Regional Trail (MRRT) between the cities of South St. Paul and Hastings. On January 25, 2009 the Metropolitan Council approved a master plan amendment which changed the trail’s alignment for the section between Hastings and Spring Lake Park Reserve (Referral No. 15553-5). On June 24, 2009 the Metropolitan Council approved reimbursement consideration for up to \$2,100, 665 as a match to \$3,395,909 of federal grants for MRRT-North, Central, Pine Bend and East sections. The County’s current request is for MRRT-Rosemount section. All of these MRRT segments are shown in **Figure 1: Mississippi River Regional Trail—Dakota County**

Figure 1: Mississippi River Regional Trail—Dakota County

In April 1997, the Metropolitan Council approved the master plan for the North Urban Regional Trail (NURT)—Referral No. 16366-1. The master plan called for construction of a portion of the trail within the Dodge Nature Center including the acquisition of 3 acres needed for the trail right of way. To-date the

Metropolitan Council has approved two grants for trail acquisition and construction of 1.1 miles of trail within the Dodge Nature Center as follows:

- 1) Grant SG-2009-041 for \$279,000. This is financed from the FY 2010 Parks and Trails Fund appropriation to match a \$700,000 federal grant
- 2) Grant SG-2010-068 for \$96,000. This is financed from the FY 2011 Parks and Trails Fund appropriation. It provides addition match to the \$700,000 federal grant described above.

The County received another federal grant of \$709,000 for this same trail project. Its current request is that up to \$415,000 of County funding for match to this grant be eligible for reimbursement in a future regional parks capital improvement program.

The County's third request for reimbursement consideration of up to \$172,000 for signage in regional trails and parks is consistent with the master plans where the signs will be constructed. To-date the Metropolitan Council approved a \$303,000 grant (SG-2010-064) for signs in Lebanon Hills Regional Park and Spring Lake Park Reserve. This grant is financed from the FY 2011 Parks and Trails Fund appropriation. The County's current request is that up to \$172,000 of County funding budgeted for signage in other regional parks and trails for 2011 be eligible for reimbursement in a future regional parks capital improvement program.

Reimbursement request analysis

The following table provides details for the County's CIP reimbursement consideration request.

Table 1: Dakota County's Metro Regional Parks CIP Reimbursement Consideration Request				
Project Title	Federal Grant	Dakota County Funds proposed for reimbursement from Metro Regional Parks CIP	Project timeline	Other Conditions or Comments
MRRT-Rosemount acquisition and construction	\$ 1,000,000	\$ 1,100,000	Final design 2010/2011 with construction beginning 2011 or early 2012	Match to federal grant
NURT-Dodge Nature center section acquisition and construction	\$ 709,000	\$ 415,000	Final design 2010/2011 with construction beginning 2011 or early 2012	Match to federal grant
System-wide signage	Not applicable	\$ 172,000	2011	
TOTAL ALL PROJECTS	\$ 1,709,000	\$ 1,687,000		

Strategy 2(f) of the 2030 Regional Parks Policy Plan states:

Strategy 2(f): Reimbursement

Reimbursement will be considered for development provided the project in question is consistent in timing, scale, type and cost with an approved master plan, that all information required for a development grant is submitted to the Council prior to the regional park implementing agency undertaking the project and that the Council approves the project.

These projects are consistent with the terms of Strategy 2(f) for the following reasons:

2. The timing, scale and cost of this project are consistent with the Council-approved development master plan under the following factors:
 - a. The timing, scale and cost of the projects are consistent with the development master plans for the following trail and park projects:

Mississippi River Regional Trail (MRRT) master plan initially approved in 1999 with an amendment to the plan regarding the MRRT East segment approved January 28, 2009

North Urban Regional Trail (NURT) master plan update approved in April 1997.
 - b. Enough information has been submitted in this request regarding what would be financed with a Council grant to meet the requirements of Strategy 2(f). In this case, that information is contained in **Attachment 1**.
 - c. Dakota County is requesting Metropolitan Council approval for these projects prior to undertaking them.

Status of reimbursement consideration requests

At this time there are about \$42 million of projects that the Metropolitan Council has approved for regional parks CIP reimbursement consideration. Such approval only allows the applicable regional park agency to seek reimbursement funding for such projects as part of that agency's share of future regional parks capital improvement programs. Table 2 at the end of this memorandum lists all projects that may be considered for reimbursement in future regional parks capital improvement programs as of August 23, 2010.

Conclusion

The *2030 Regional Parks Policy Plan* requires that requests for CIP reimbursement consideration are consistent with the terms of Strategy 2(f). This review concludes that Dakota County's request for reimbursement consideration of up to \$1,687,000 for projects shown in Table 1 is consistent with the terms of Strategy 2(f). The timing of when Dakota County is reimbursed for any portion of the \$1,687,000 is dependent on when funds are provided in future regional parks capital improvement programs. However, the Council does not under any circumstances represent or guarantee that a reimbursement will be granted, and expenditure of local funds never entitles a park agency to reimbursement.

Recommendation

That the Metropolitan Council consider reimbursing Dakota County in future regional parks capital improvement programs up to \$1,687,000 for projects shown in Table 1. However, the Council does not under any circumstances represent or guarantee that reimbursement will be granted, and expenditure of local funds never entitles a park agency to reimbursement.

Arne Stefferud
Planning Analyst -- Parks
Metropolitan Council
390 N. Robert Street
St. Paul, MN 55101

Dear Arne,

Dakota County (DC) requests Metropolitan Council consideration for eligibility for future reimbursement of County funds to be used for final design/engineering, construction and associated expenses for regional capital improvement projects.

DC continues to advance the development of multiple segments of the Mississippi River Regional Trail (MRRT) and the North Urban Regional Trail (NURT). As planning advances, the updated cost estimates more clearly define County investment required later in 2010 and into 2011. Therefore, eligibility for reimbursement of County funds for the MRRT and NURT projects is requested for:

MRRT in Rosemount from Inver Grove Heights city limit to Spring Lake Park Reserve (3.7 miles):

- DC has received a federal transportation grant for acquisition and construction in the amount of \$1,000,000, and has committed a County contribution of \$175,000 for final design/engineering and \$925,000 as grant match and for other related costs. Final design is schedule for 2010/2011 with construction beginning late 2011 or early 2012.
- Total Reimbursement Eligibility Request: \$1,100,000

NURT through the Dodge Nature Center, West St. Paul (1.1 miles)

- DC has received a federal transportation grant for acquisition and construction in the amount of \$709,000, and has committed a County contribution of \$125,000 for final design/engineering and \$290,000 as grant match and for other related costs. Final design is schedule for 2010/2011 with construction beginning late 2011 or early 2012.
- Total Reimbursement Eligibility Request: \$415,000

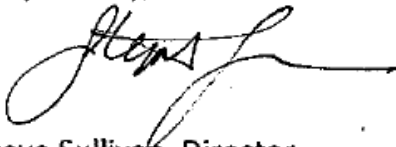

Furthermore, DC seeks consideration for eligibility for future reimbursement of County funds for:

System-wide Sign Elements Plan Implementation

- Signs include primary and secondary entrance type monument signs, as well as directional, regulatory, interpretive and other signs. County funds of \$172,000 have been budgeted for implementation in 2011.

Thank you for consideration of these requests.

Respectfully,

A handwritten signature in black ink, appearing to read "Steve Sullivan", with a long horizontal flourish extending to the right.

Steve Sullivan, Director
Dakota County Parks and Open Space Department

C: Michelle Beeman, Director, Environment and Natural Resources Section
Bruce Blair, Manager, Park Facilities and Natural Resources Development
Stacy Reilly, Financial Analyst

Table 2: List of Outstanding Regional Park CIP Reimbursement Consideration Requests as of Aug. 23, 2010

Park Agency Name	Outstanding amount per project for Metro Parks CIP reimbursement consideration	Project Description (Includes park or trail name, amount of land acquired or a description of development/rehabilitation project)	Year Met Council authorized reimbursement consideration prior to project start
Anoka County	\$ 0	No outstanding reimbursements.	
City of Bloomington	\$ 0	Hyland-Bush-Anderson Lakes Park Reserve: Reimbursement for site restoration of 6101-84th Street parcel paid off with \$37,000 in 2010-11 Parks CIP grant	2005
Carver County	\$ 100,000	Lake Waconia Regional Park-Demolition of Buildings	2007
Caver County	\$ 2,288,361	Lake Waconia Regional Park - Acquisition of land for park including Lake Waconia ballroom after \$423,000 deduction from 2010-11 Parks CIP reimbursement grant	2004 and 2008
Caver County	\$ 1,072,000	Financing local match for a \$1,976,000 federal grant to develop the Dakota Rail Regional Trail	2008
	\$ 3,460,361	Carver County Total	
Dakota County	\$ 198,634	Lake Byllesby Regional Park road project after \$225,000 deduction from 2008-09 CIP reimbursement grant	1997
Dakota County	\$ 62,195	Lebanon Hills Regional Park campground expansion	2000
