Proposed Action

That the Council authorize the Regional Administrator to procure Moyno-brand pumps, repair parts, and services from Van Bergen & Markson, Inc. on a Sole Source basis in an amount not to exceed \$750,000 for a three-year period.

Background

Moyno-brand progressing cavity pumps are used extensively in the Council's wastewater treatment plants for conveying thickened sludge and polymer. The original equipment was furnished under previous Council capital projects, subject to competitive procurement requirements.

Rationale

This sole source is required to maintain existing capital equipment. Van Bergen & Markson, Inc. is the only local authorized representative for Moyno-brand pumps and replacement parts and is a Certified Service Facility for Moyno.

Funding

Funding is provided within the annual operating budgets of the wastewater treatment plants where this equipment is in use.
