Proposed Action/Motion

That the Metropolitan Council concur with the Transportation Advisory Board (TAB) action to Amend the 2007-2010 Transportation Improvement Program (TIP) to add SP#164-070-07 Planning and Pre-design of Twin Cities Bioscience Corridor in FY 2007.

Issue(s)

High Priority Project (HPP) funds were allocated to this project in 2005. The amendment requests \$513,283 be added in 2007 with the appropriate description of intended work.

This is new money, so fiscal balance is maintained. It is exempt for project and regional level air conformity analysis and it is consistent with the Metropolitan Council Transportation Policy Plan adopted on December 14, 2005 with FHWA/FTA conformity determination established on February 1, 2005.
