Issue(s)

This procurement is in alignment with the bus replacement schedule and Capital Improvement Plan (CIP) established by MTS for Metro Mobility and the regional providers. The plan allows for the expansion of the current Metro Mobility fleet by four (4) additional buses due to increasing growth in Metro Mobility ridership. In addition, this procurement includes a budget of up to \$300,000 for three regional fleet replacement vehicles that will be assigned to Scott County Transit.

Overview and Funding

This bus acquisition utilizes the State of Minnesota Cooperative Vehicle Procurement Contract Release #B-347(5) issued September 21, 2006. Proposals were due to MNDOT on November 8, 2006. This procurement process has simplified the purchase process, is compliant with all State and Federal regulations, and provides the Metropolitan Council with competitive and stable pricing. The MNDOT vehicle contract expires on November 30, 2007.

Capital funding, utilizing Regional Transit Capital funds, for these purchase agreements are outlined in Council Action Item 2007-254 titled “2007 Capital Program Budget Amendment”. The combined contracts represent a total cost of \$2,502,776.
