

Transportation Advisory Board
of the Metropolitan Council of the Twin Cities

ACTION TRANSMITTAL

No. 2011-43

DATE: May 6, 2011
TO: Transportation Advisory Board
FROM: Technical Advisory Committee
SUBJECT: Roadway Functional Classification Map for the Seven-County Twin Cities Region.
MOTION: That the Transportation Advisory Board adopts the Roadway Functional Classification Map for the seven-county Twin Cities region as the official map for the 2011 regional solicitation.

BACKGROUND AND PURPOSE OF ACTION:

The regional solicitation process is conducted biennially to allocate federal transportation funds from four programs; Surface Transportation Program – Urban Guarantee (STP-UG), Congestion Mitigation Air Quality Program (CMAQ), Transportation Enhancements Program (TE) and the Bridge Improvement and Replacement Program (BIR). Federal rules allow recipients of these funds to focus or target them to meet defined regional needs. The Twin Cities region targets the STP-UG funding toward certain minor arterials and principal arterials that are not freeway design. Roadway improvement projects must be on roadways functionally classified as "A" Minor Arterials or Non-Freeway Principal Arterials to be eligible for STP-UG funds. The TAB still solicits for bikeway and walkway projects in the STP-UG program and may also decide to allocate STP-UG funds to transit capital projects. Bridges must be located on roads classified as Collectors or higher to be eligible for BIR funds.

The TAC has approved a number of roadway functional classification changes since the 2009 regional solicitation and these changes have been recorded in the official map. The TAB will adopt the roadway functional classification map to provide an official map for applicants and projects reviewers to use as a resource in determining project eligibility in the 2011 regional solicitation that is set to begin on May 12, 2011.

The map will be made available on the Metropolitan Council's website at [http://gis.metc.state.mn.us/mapgallery/pdfs/large reference fun class.pdf](http://gis.metc.state.mn.us/mapgallery/pdfs/large_reference_fun_class.pdf) and is referenced in the 2011 regional solicitation package. Attached for information only is a summary table describing changes approved by the TAC since may 2009 wen the TAB adopted the map for the 2009 regional solicitation..
