Division/Department: Metropolitan Transportation Services

Proposed Action/Motion

That the Metropolitan Council concur with the Transportation Advisory Board (TAB) action to adopt an amendment to the 2007-2010 Transportation Improvement Program (TIP) to move SP #19-642-42 from 2008 to 2007 and add approximately \$500,000 to the project cost.

Overview and Funding

The change in project cost and moving the project to SFY 2007 requires an amendment to the 2007-2010 Transportation Improvement Program (TIP). Fiscal constraint is maintained by deferring projects 27-701-13 and 164-090-09 with \$6,627,000 in federal funds. The project is exempt from regional air quality conformity analysis and is consistent with the Metropolitan Council Transportation Policy Plan, adopted on December 14, 2005, with FHWA/FTA conformity determination established on February 1, 2005.
