### Proposed Action

That the Metropolitan Council pass Resolution 2012-12 that authorizes acquisition of fee title ownership and permanent/temporary easements necessary for the 1-GV-461 Relief Lift Station and Forcemain Project 805700; and authorizes Council legal staff to initiate condemnation proceedings for those parcels staff cannot acquire by negotiation.

### Background

Additional sanitary sewer capacity is required to support growth in the communities of St. Louis Park and Golden Valley. This capacity will be provided by the construction of a lift station in the vicinity of the Golden Valley/St. Louis Park border in SE Golden Valley and the construction of a force main from that location to the discharge location on the existing Plymouth Force Main. Facility planning is complete and detailed engineering design is underway. Fee title ownership, permanent and/or temporary easements are required from several property owners to facilitate the construction scheduled to begin in April 2013.

### Rationale

Land acquisition is necessary to implement the proposed interceptor improvements. This action delegates authority to staff to acquire property for the project and to use the condemnation process if necessary to ensure timely project delivery.

### Funding

The project cost of \$30,000,000 is included in the 2012 Authorized Capital Program.

### Known Support / Opposition

No known opposition.
